Dear Thomas Brülisauer,

We are a group of students from the University of Navarra, located in Spain. And we are studying the degree "Primary education".

In the subject "Teaching natural science" we are developing a didactic proposal about the biosphere "Val Müstair - Parc Naziunal biosphere reserve", which will include each own competencies, objectives, and activities.

Because of the fact that children are more motivated when it comes to learning about sciences related to their own environment, we want to share with you our work when it is finished.

We are waiting for your response.

Hope you are having a good day.

Yours sincerely,

Students of UPNA (Public University of Navarra)

Dear students

You have chosen a very interesting topic, thank you! Please let me know if you have any further questions or if I could give you any help to achieve your goals. Otherwise I'm looking forward to hearing from you.

Kind regards

Cordials salüds

Thomas Brülisauer
